

# Unit 1 Assessment • Relationships between Quantities and Expressions

1. A school district kept track of how many students bought school lunches over the course of four months. The data are recorded in the table.

| Month    | Number of Students |
|----------|--------------------|
| January  | 528                |
| February | 480                |
| March    | 462                |
| April    | 370                |

Which graph below best displays the data in the table?
