

25. The graph below shows the function $g(x)$. The table shows several input- and output- values of the function $h(x)$

x	$h(x)$
-3	$\frac{1}{8}$
-1	$\frac{1}{2}$
1	2
3	8
5	32

- A. Identify each type of function, and explain how you know.

- B. Compare the end behaviors of both functions.

- C. List the domain and range of each function.
